

MACS Plan

Managed Access to Comprehensive Services

Service Provider for Medicaid

NEW CHOICES WAIVER

Providing services in Weber, Morgan and Davis Counties

MACS Plan is a case management provider for the New Choices Waiver program sponsored by the Utah Department of Health. The program is designed to give eligible persons the opportunity to have their needs met in their home or in the community environment of their choice.

MACS Plan has been providing outstanding care management for participants in Weber, Morgan and Davis Counties for the past 12 years.

We provide all enrollees with dependable, dedicated care.

If Eligible, MACS Plan will:

- Complete a comprehensive medical, cognitive and resource assessment to determine what type of placement options may be available to meet the enrollees medical and safety needs.
- Place enrollees in a variety of settings including home, residential, or assisted living placements.
- Develop a comprehensive care plan to address the medical, safety and resource needs of the individual at the identified placement site.
- Coordinate the move with family, facilities and the service providers.

Once Individuals are Placed, MACS Plan will Continue to Provide:

- Ongoing case management by an experienced social worker and nurse team to monitor medical and safety issues.
- Coordination with family, facilities, care providers, and other needed medical services.
- Assistance with maintaining benefits and obtaining needed resources.
- Monitoring of services to ensure quality of care.
